

THE GROVES

THE MILESTONES FOR OUR FAMILY KEEP COMING ...

This year, I marked 25 years at my job at Philips. It is near to home and I do enjoy the work.

Andrew graduated from WWU, and started working in his field right away.

In August, Alan and Katie were married. First, Melanie & I traveled to the East coast for some sight-seeing (Portland, ME & Boston, MA). Then the rest of the

family joined us for the wedding in Binghamton, NY. We had so much fun that day together!

Our German daughter Jessi came from Europe for the wedding and then stayed a couple more weeks with us in Seattle.

Austin and Janae are expecting another child in June! Meanwhile, Camden

fascinates us with her talking and reasoning.

This year Melanie & I kayaked over 130 miles. And, I did a week-long hike to the amazing Enchantments alpine lakes.

God certainly has blessed our family this year! May your next year be a joy.

- Larry
